Advisory Action

Application No.

09/418,536

Applicant(s)

POWERS ET AL.

Examiner

Frances P. Oropeza

Art Unit

3762

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 22 October 2003 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

PERIOD FOR REPLY [check either a) or b)]

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
- b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. ☐ A Notice of Appeal was filed on _____. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2. ☐ The proposed amendment(s) will not be entered because:
- (a) ☐ they raise new issues that would require further consideration and/or search (see NOTE below);
- (b) ☐ they raise the issue of new matter (see Note below);
- (c) ☐ they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
- (d) ☐ they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____.

3. ☐ Applicant's reply has overcome the following rejection(s): _____.
4. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5. ☒ The a) ☐ affidavit, b) ☐ exhibit, or c) ☒ request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.
6. ☐ The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7. ☒ For purposes of Appeal, the proposed amendment(s) a) ☐ will not be entered or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: _____.

Claim(s) objected to: _____.

Claim(s) rejected: 1-16 and 18-28.

Claim(s) withdrawn from consideration: _____.

8. ☐ The proposed drawing correction filed on _____ is a) ☐ approved or b) ☐ disapproved by the Examiner.
9. ☐ Note the attached Information Disclosure Statement(s) (PTO-1449) Paper No(s). _____.
10. ☐ Other: _____

Continuation of 5. does NOT place the application in condition for allowance because:

The Applicant's arguments filed 10/22/03 have been fully considered, but they are not convincing.

The Applicant asserts that Skelton et al. do not teach recorded ECG data can be displayed on the display to the user. The Examiner disagrees. The medical treatment device (10) includes treatment modules (12-16) (col. 3 @ 29-33). The device (10) enables medical treatment modules, one module being ECG monitoring (col. 5 @ 37-39). The data monitoring operation includes recording the data, the data used at the time of treatment or recorded for later use (col. 2 @ 3-10; col. 13 @ 57-63). The recorded data is made available to the user on the display (24) (figure 3). The recorded output of the ECG module is graphically displayed (figure 4 - 98 a) (col. 9 @ 64-67). Accumulated data, including recorded ECG data, is displayed (col. 12 @ 10-16).

The Applicant asserts that Skelton et al. do not teach recorded ECG data can be displayed simultaneously with currently monitored information. The Examiner disagrees. The display allows graphic display of three data traces (figure 4). The traces shown on the screen can be altered (figure 8; col. 12 @ 13-22; col. 11 @ 28-30 ; col. 13 @ 44-48). As to the claimed invention, Skelton et al. is read as teaching the display of two traces (col.12 @ 16-22), one is the currently monitored ECG (col. 13 @ 57-61) and the second is recorded ECG data (col.12 @ 13-22).

Skelton et al. teach recorded ECG data can be displayed on the display to the user, and recorded ECG data can be displayed simultaneously with currently monitored information, hence the rejections of record stand.
